1	INCLUDING APERTURED BOARD AND	34	AERODYNAMICALLY SUPPORTED OR
	ELEMENT HAMMERED INTO APERTURE		RETARDED
2	DOMINO EFFECT	35	.Ornithopter
3	INCLUDING VIBRATING OR	36	.Including rotary wing (e.g.,
	HORIZONTALLY RECIPROCATING		helicopter, flying propeller,
	SUPPORT FOR TRAVELLING OBJECT		autogyro, etc.)
	OR TRAVELLING OBJECT THEREFOR	37	And means to rotate wing
4	HAVING PORTIONS KNOCKED APART OR	38	Separable rotating means
	AWRY BY IMPACT	39	Including resilient actuator
5	.Including portion serving as	40	Including flaccid pulling
	container for diverse articles		element
	(e.g., pinata)	41	Having rewinding spring or
6	.Vehicle		plural discrete flaccid
7	SIMULATION OF VEHICLE COCKPIT OR		elements
	OF VEHICLE CONTROL	42	Flaccid element wound about
8	TOY MONEY BOX		and in contact with portion
9	.Having figure or mechanism		which moves aloft
	operated or released by coin	43	Including spiral actuator
10	.Having coin depositing mechanism	44	Including elastomeric actuator
11	Coin projector	45	And projector
12	Coin depositing figure	46	.Spinning disc (e.g., flying
13	.Having retractable coin slot or		saucer)
	guard	47	With electric light or sounder
14	OPERATED BY INTRINSIC TEMPERATURE	48	Having through air passage
	CHANGE	49	.Parachute
15	HAVING MEANS FOR FORMING	50	Released from airplane or
	TRANSITORY BUBBLE		simulated airplane
16	.Including movably mounted means	51	Released from container
	to dip orificed member into	52	From rocket or simulated
	solution		rocket
17	And mouthpiece	53	Container detached from
18	And variable size air chamber		parachute
19	.Including mouthpiece	54	And separable projector
20	And solution reservoir with	55	.Having retractable landing gear
	discrete intermediate passage	56	.Jet-propelled
	leading to bubble forming area	57	.Having motor-driven propeller
21	.Including variable size air	58	Gear-driven or having plural
	chamber		propellers
22	SPARKING	59	Elastomeric motor (e.g., rubber
23	.Figure, wheeled, or simulated		band)
	weapon	60	Enclosed
24	SMOKING	61	.Glider
25	.Wheeled vehicle	62	Having folding wing
26	BODY-CARRIED OR WORN	63	And projector or launcher
27	.Facial, head or neck	64	Resiliently biased projector
28	.Torso	65	Including means to retain
29	STRADDLED		resilient propulsion member in
30	TETHERED FIXED-WING AIRCRAFT		stressed condition
31	.Tether-manipulated control or	66	Having adjustably mounted
	mechanism		airfoil
32	Elevator control only	67	Having longitudinally folded or
33	.Including aircraft-carried	.	creased fuselage
	propulsion means	68	Having ballast feature

69 70	HAVING SEPARABLE NESTED PARTS SAND CONSTRUCTION	104	One part swingable about an axis extending along a side or
71	CONVERTIBLE FROM, OR SERVING AS	105	transversely through its end
72	DIVERSE ARTICLE	105	.Including post having plural longitudinal slots for panel
72 73	.Including figure toyDiverse article is container,		or strip
13		106	.Including elongated element
74	holder, or supportDiverse article is fluid	100	having laterally opposed
/ 4	container or handbag		interlocking notches (e.g.,
75	.Including container or storing		log cabin type)
7 3	toy parts	107	.Including longitudinally flexed
76	.Container having shape of		rod or strips
, 0	specific article	108	.Including connectable panels or
77	.Including toy appurtenance		strips
	attachable to container	109	Folding panel, strip, or
78	Rollable wheel		connector
79	.Having severable portion (i.e.,	110	And door, window or perfecting
	score lineline)		structure for building
80	.Includng fold line (to convert	111	With separate diverse connector
	to toy)		between adjacent panels or
81	.Including sounding toy		strips
82	TOY THEATER	112	Connected panels or strips
83	.Including movable figure		having parallel edges and
84	Including marionette	110	mutually angled faces
85	CONSTRUCTION TOY	113	Extending transversely through
86	.With special tool or workholder	114	panel or strip
87	.For assembly into permanent form	114	Connected with adjacent edges transversely oriented
	(i.e., nonseparable)	115	Connected panels or strips
88	Vehicle (e.g., aircraft,	113	having parallel edges and
	automobile)		mutually angled faces
89	.Includng fluid conduit	116	Having resilient interlocking
90	.Including motor		portions
91	.Including electrical feature or	117	.Single column stacking
0.0	assembly	118	.Including substrate for
92	.Including permanent magnet or		construction elements (e.g.,
93	suction cup to secure elements .Vehicle		for array of tiles or pegs)
94	Alternative vehicular forms	119	.Including flaccid connector for
95	Wheeled		joining plural elements
96	And pulling member or	120	.Resilient interlocking joint
70	extrinsic guide		(e.g., snap joint)
97	.Figure	121	Resilient male member
98	Having attachable clothes	122	.Including abutting elements
99	Alternative figures		having slots or apertures
100	Having detachable subordinate		receiving discrete transverse
	part of face or head	122	connector
101	Plural mutually attachable	123	Transverse member is separable bolt or screw
102	.Having parts assembled for	124	.Interfitting elements
	relative movement	124	Including identically shaped
103	Including rotary gear, pulley,	147	interfitting portions
	or strand-winding member		THEORET POLICIONS

126	Including three rod-like	154	.Including remote control means
	elements projecting from a		or tether
	fourth element or common	155	For buoyancy control
	connector	156	.Including means to move figure
127	Joined by lateral sliding		or figure part
	(e.g., dovetail)	157	Including oar or paddle held by
128	Including element having plural		figure
	bosses for forming single	158	Mechanical motor within figure
	joint	159	Fluid operated means to move
129	HAVING PERMANENT MAGNET (NOT		figure or figure part
	MOTOR ASSOCIATED)	160	.Boat
130	.For operating valve, switch, or	161	Submersible
	clutch	162	Including mechanical
131	.Including loosely confined parts	102	_
	moved relatively by magnetic	163	propulsion motor
	field		Having propulsion means
132	.Manually held member for	164	Mechanical motor
152	magnetic interaction with	165	And screw propeller rotated
	additional member having		by motor
	confined movements	166	OPERATED BY GRAVITY-FED FLUENT
133			MATERIAL
133	.And member movable in spaced	167	.For moving figure or figure
124	relation to moving magnet		portion
134	Including interposed partition	168	INCLUDING UNATTACHED GRAVITY-FED
135	Magnet or member moves along		ROLLING, TUMBLING, OR ENERGY-
	partition surface		IMPARTING FALLING ELE ENT, OR
136	Including motor to move		PATHWAY THEREFOR (E.G., MARBLE
	member, magnet, or partition		RUNWAY)
137	.Contacting, mutually attracted	169	.For moving figure or figure
	members		portion
138	Contact maintained during	170	.Hand-supported or-manipulated
	relative movement		runway
139	Including figure or figure	171	.And means for automatically
	portion		recycling element
140	INCLUDING MEANS CREATING,	172	Hand-cranked element conveyer
	STORING, OR OPERATED BY	173	.For moving element-supporting
	STATICALLY INDUCED CHARGE		device
141	TELEPHONE		
		174	Wheeled element carrier
142	.Having electrical or voice	174 175	Wheeled element carrier
142	.Having electrical or voice feature	174 175	HAVING LIGHT-OR SOUND-RESPONSIVE
142 143	_	175	HAVING LIGHT-OR SOUND-RESPONSIVE SWITCH OR CONTROL
	feature		HAVING LIGHT-OR SOUND-RESPONSIVE SWITCH OR CONTROL OPERATED BY RELATIVELY MOVING
143 144	feature HAVING KEYBOARD	175 176	HAVING LIGHT-OR SOUND-RESPONSIVE SWITCH OR CONTROL OPERATED BY RELATIVELY MOVING FLUID OR PRESSURE DIFFERENTIAL
143 144 145	feature HAVING KEYBOARD SIMULATED HAND OR POWER TOOL .Saw or drill	175 176 177	HAVING LIGHT-OR SOUND-RESPONSIVE SWITCH OR CONTROL OPERATED BY RELATIVELY MOVING FLUID OR PRESSURE DIFFERENTIAL .Including suction cup
143 144 145 146	feature HAVING KEYBOARD SIMULATED HAND OR POWER TOOL .Saw or drill HAVING MEANS TO DRAW	175 176 177 178	HAVING LIGHT-OR SOUND-RESPONSIVE SWITCH OR CONTROL OPERATED BY RELATIVELY MOVING FLUID OR PRESSURE DIFFERENTIAL .Including suction cup .Including motorized fan
143 144 145 146 147	feature HAVING KEYBOARD SIMULATED HAND OR POWER TOOL .Saw or drill HAVING MEANS TO DRAW CHANGEABLE BOOK, CARD, OR PICTURE	175 176 177	HAVING LIGHT-OR SOUND-RESPONSIVE SWITCH OR CONTROL OPERATED BY RELATIVELY MOVING FLUID OR PRESSURE DIFFERENTIAL .Including suction cup .Including motorized fanProducing supporting air column
143 144 145 146	feature HAVING KEYBOARD SIMULATED HAND OR POWER TOOL .Saw or drill HAVING MEANS TO DRAW CHANGEABLE BOOK, CARD, OR PICTURE .Including device erected by	175 176 177 178 179	HAVING LIGHT-OR SOUND-RESPONSIVE SWITCH OR CONTROL OPERATED BY RELATIVELY MOVING FLUID OR PRESSURE DIFFERENTIAL Including suction cup Including motorized fan . Producing supporting air column or cushion
143 144 145 146 147	feature HAVING KEYBOARD SIMULATED HAND OR POWER TOOL .Saw or drill HAVING MEANS TO DRAW CHANGEABLE BOOK, CARD, OR PICTURE .Including device erected by opening card or book, or	175 176 177 178	HAVING LIGHT-OR SOUND-RESPONSIVE SWITCH OR CONTROL OPERATED BY RELATIVELY MOVING FLUID OR PRESSURE DIFFERENTIAL Including suction cup Including motorized fan . Producing supporting air column or cushion Including variable-size fluid
143 144 145 146 147 148	feature HAVING KEYBOARD SIMULATED HAND OR POWER TOOL .Saw or drill HAVING MEANS TO DRAW CHANGEABLE BOOK, CARD, OR PICTURE .Including device erected by opening card or book, or removing from cover	175 176 177 178 179	HAVING LIGHT-OR SOUND-RESPONSIVE SWITCH OR CONTROL OPERATED BY RELATIVELY MOVING FLUID OR PRESSURE DIFFERENTIAL Including suction cup Including motorized fanProducing supporting air column or cushion Including variable-size fluid chamber to move fluid
143 144 145 146 147 148	feature HAVING KEYBOARD SIMULATED HAND OR POWER TOOL .Saw or drill HAVING MEANS TO DRAW CHANGEABLE BOOK, CARD, OR PICTURE .Including device erected by opening card or book, or removing from cover .Movable picture portion	175 176 177 178 179	HAVING LIGHT-OR SOUND-RESPONSIVE SWITCH OR CONTROL OPERATED BY RELATIVELY MOVING FLUID OR PRESSURE DIFFERENTIAL Including suction cup Including motorized fan Producing supporting air column or cushion Including variable-size fluid chamber to move fluid Supplying compressed gas to
143 144 145 146 147 148	feature HAVING KEYBOARD SIMULATED HAND OR POWER TOOL .Saw or drill HAVING MEANS TO DRAW CHANGEABLE BOOK, CARD, OR PICTURE .Including device erected by opening card or book, or removing from cover .Movable picture portionMoved by opening or closing	175 176 177 178 179	HAVING LIGHT-OR SOUND-RESPONSIVE SWITCH OR CONTROL OPERATED BY RELATIVELY MOVING FLUID OR PRESSURE DIFFERENTIAL Including suction cup Including motorized fan Producing supporting air column or cushion Including variable-size fluid chamber to move fluid Supplying compressed gas to rupture sheet (e.g., film
143 144 145 146 147 148	feature HAVING KEYBOARD SIMULATED HAND OR POWER TOOL .Saw or drill HAVING MEANS TO DRAW CHANGEABLE BOOK, CARD, OR PICTURE .Including device erected by opening card or book, or removing from cover .Movable picture portionMoved by opening or closing card or book	175 176 177 178 179 180	HAVING LIGHT-OR SOUND-RESPONSIVE SWITCH OR CONTROL OPERATED BY RELATIVELY MOVING FLUID OR PRESSURE DIFFERENTIAL Including suction cup Including motorized fan Producing supporting air column or cushion Including variable-size fluid chamber to move fluid Supplying compressed gas to rupture sheet (e.g., film burster)
143 144 145 146 147 148	feature HAVING KEYBOARD SIMULATED HAND OR POWER TOOL .Saw or drill HAVING MEANS TO DRAW CHANGEABLE BOOK, CARD, OR PICTURE .Including device erected by opening card or book, or removing from cover .Movable picture portionMoved by opening or closing card or bookIncluding hand-manipulatable	175 176 177 178 179 180 181	HAVING LIGHT-OR SOUND-RESPONSIVE SWITCH OR CONTROL OPERATED BY RELATIVELY MOVING FLUID OR PRESSURE DIFFERENTIAL Including suction cup Including motorized fan Producing supporting air column or cushion Including variable-size fluid chamber to move fluid Supplying compressed gas to rupture sheet (e.g., film burster) Including means to feed sheet
143 144 145 146 147 148 149 150	feature HAVING KEYBOARD SIMULATED HAND OR POWER TOOL .Saw or drill HAVING MEANS TO DRAW CHANGEABLE BOOK, CARD, OR PICTURE .Including device erected by opening card or book, or removing from cover .Movable picture portionMoved by opening or closing card or bookIncluding hand-manipulatable actuator	175 176 177 178 179 180 181	HAVING LIGHT-OR SOUND-RESPONSIVE SWITCH OR CONTROL OPERATED BY RELATIVELY MOVING FLUID OR PRESSURE DIFFERENTIAL Including suction cup Including motorized fan Producing supporting air column or cushion Including variable-size fluid chamber to move fluid Supplying compressed gas to rupture sheet (e.g., film burster) Including means to feed sheet Squeezable figure
143 144 145 146 147 148	feature HAVING KEYBOARD SIMULATED HAND OR POWER TOOL .Saw or drill HAVING MEANS TO DRAW CHANGEABLE BOOK, CARD, OR PICTURE .Including device erected by opening card or book, or removing from cover .Movable picture portionMoved by opening or closing card or bookIncluding hand-manipulatable	175 176 177 178 179 180 181	HAVING LIGHT-OR SOUND-RESPONSIVE SWITCH OR CONTROL OPERATED BY RELATIVELY MOVING FLUID OR PRESSURE DIFFERENTIAL Including suction cup Including motorized fan Producing supporting air column or cushion Including variable-size fluid chamber to move fluid Supplying compressed gas to rupture sheet (e.g., film burster) Including means to feed sheet

185	Including external fluid-	215	Having tether for whirling
	operated accessory or means to		sounder
	move figure portion	216	Whistle or siren
186	Contractable balloon for moving fluid	217	<pre>.Having fluid-driven rotatable radial blade (e.g., pinwheel)</pre>
187	Jet-propelled balloon	218	Rollable or having plural
188	Sounding		rotating bladed members
189	Wheel-actuated	219	HAVING CHEMILUMINESCENT LIGHT
190	And tearing, or having		SOURCE, OPTIC FIBER, MIRROR,
	mechanism or manipulatable		OR LENS
	means for moving figure	220	INFLATABLE
	portion	221	.Having separately inflatable
191	Having electrical or wind-up		parts
	motor	222	.Including externally applied
192	Including motive power means		sealing element
	or hand manipulator for	223	.And means attachable to form a
	sounder		figure
193	And bellows or bulb	224	.Having check valve
194	Rotary or pivoted valve	225	.Simulated aerial or space
195	Reciprocating valve		vehicle
196	Including piston slidable	226	.Figure
	along central apertured member	227	INFANT'S TOY AND MEANS FOR
197	Bellows or bulb for moving	22,	RETAINING, ATTACHING, OR
	fluid		SUPPORTING TOY IN INFANT'S
198	To move figure or figure		ENVIRONMENT
	portion	228	SUSPENDED FOR TRAVEL BELOW GUIDE
199	.For changing or moving figure or		OR SUPPORT MEANS
	figure part	229	.Including electrical or wind-up
200	Including mouthpiece for		propulsion motor
	blowing or sucking	230	SIMULATED AIRCRAFT OR SPACE
201	Including fluid-driven rotary		VEHICLE (I.E., NON-
	blades		AERODYNAMIC)
202	.Including mouthpiece for blowing	231	.Space vehicle or rocket
	or sucking	232	.Having means to rotate propeller
203	Plural differently operated		or rotor
	sounders	233	GYROSCOPIC
204	Whistle or siren	234	.Having figure
205	Including discrete relatively	235	.Having detachable cord for
	movable portions		spinning
206	Including distinct means for	236	ROTATING OR HAVING VISIBLE
	enabling selection of pitch		ROTATING PORTION (E.G.,
207	Vibratory reed sounder		SPINNING OR WHIRLING, NOT
208	Including distinct means for		ROLLING)
200	enabling selection of pitch	237	.On wheeled support
209	And cone-shaped terminal	238	And having additional portion
200	portion (e.g., horn)		which reciprocates or
210	.Convection-operated		oscillates, or which rotates
211	.Having jet propulsion		about distinct axis
212	And multiple stages or holder	239	.Including corrugated support for
212	for launching		imparting rotation
213	.Sounding	240	.Including unattached rod for
214	Having twistable or		manipulating toy
2 I I	intertwistable flaccid strands	241	.Including helically grooved or
	for rotating sounder		twisted shaft for imparting
	101 100acing bounder		rotation

242	.Including electric light or electric sounder	280	Including wheel-driven mechanism for moving figure or
243	.Including markings producing		figure portion
213	visual effect (e.g.,	281	Plural relatively moving
0.4.4	chromatic)	000	figures
244	Thaumatropic effect	282	Dependent movement or common
245	Cord impeller	000	component
246	.Including hand crank for imparting rotation	283	<pre>One figure mounted on another figure</pre>
247	.Having attached cord for imparting rotation	284	Relatively moving portions of one figure
248	Wound about rotatable member	285	Having moving limb or foot to
249	Including spring to rewind		simulate walking
250	Bandalore	286	Figure movement simulates
251	Including sounder, figure, or		propulsion of wheeled support
231	vehicle	287	Movement about vertical axis
252	Sounding	_0,	or by bent support wheel axle
253	Intertwistable flaccid strands	288	Including means to move figure
254	Including sounding means	200	or figure portion with respect
255			to wheeled support
256		289	Including axle through or
257	.Top Plural tops	_0,	within figure
257		290	Front and rear axles
250	Including sounding means	291	More than two axles
260	And means for spinning	292	Including wheel-driven
	Spring impeller	272	mechanism for moving figure
261	Cord impeller		portion or accessory
262	Including holding means	293	For moving limb or foot to
263	Separable	273	simulate walking
264	Having special tip or spindle	294	Having moving limb or foot to
265	Sounding		walk or simulate walking
266	.Handle supported manually	295	.Having means to simulate
200			
	actuated rotating portion	273	
267	HAVING ENCLOSED LIQUID	270	respiration, heartbeat, body
267 268	HAVING ENCLOSED LIQUID FIGURE TOY OR ACCESSORY THEREFOR	270	respiration, heartbeat, body temperature, or specific
267 268 269	HAVING ENCLOSED LIQUID FIGURE TOY OR ACCESSORY THEREFOR .Rollable	296	respiration, heartbeat, body temperature, or specific symptom of illness
267 268 269 270	HAVING ENCLOSED LIQUID FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding means		respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating
267 268 269	HAVING ENCLOSED LIQUID FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently		respiration, heartbeat, body temperature, or specific symptom of illness
267 268 269 270 271	HAVING ENCLOSED LIQUID FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanism		respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical
267 268 269 270	HAVING ENCLOSED LIQUID FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for		respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor
267 268 269 270 271	HAVING ENCLOSED LIQUID FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure		respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care,
267 268 269 270 271	HAVING ENCLOSED LIQUID FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portion	296	respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.)
267 268 269 270 271	HAVING ENCLOSED LIQUID FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of	296	respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding means
267 268 269 270 271 272	FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axis	296	respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding means And internal mechanism to move
267 268 269 270 271	FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven	296 297 298	respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding meansAnd internal mechanism to move figure portion
267 268 269 270 271 272	FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure	296 297 298 299	respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding means And internal mechanism to move figure portion Phonograph, tape, or wire
267 268 269 270 271 272	FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure portion	296 297 298 299 300	respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding means .And internal mechanism to move figure portion Phonograph, tape, or wire Head or head part movement
267 268 269 270 271 272 273 274	FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure portionVehicle and external figure	296 297 298 299 300	respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding means .And internal mechanism to move figure portion Phonograph, tape, or wire Head or head part movement Eye, eyelid, or mouth
267 268 269 270 271 272	FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure portionVehicle and external figureHaving moving limb or foot to	296 297 298 299 300 301	respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding means .And internal mechanism to move figure portion Phonograph, tape, or wire Head or head part movement Eye, eyelid, or mouth movement
267 268 269 270 271 272 273 274	FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure portionVehicle and external figureHaving moving limb or foot to simulate walking	296 297 298 299 300 301 302	respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding means .And internal mechanism to move figure portion Phonograph, tape, or wire Head or head part movement Eye, eyelid, or mouth movement Phonograph, tape, or wire
267 268 269 270 271 272 273 274	FIGURE TOY OR ACCESSORY THEREFOR .RollableHaving sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure portionVehicle and external figureHaving moving limb or foot to simulate walkingBy direct linkage to vehicle	296 297 298 299 300 301 302	respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding means .And internal mechanism to move figure portion Phonograph, tape, or wire Head or head part movement Eye, eyelid, or mouth movement Phonograph, tape, or wire .And motive power means or hand
267 268 269 270 271 272 273 274 275 276	FIGURE TOY OR ACCESSORY THEREFOR .Rollable .Having sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure portion .Vehicle and external figureHaving moving limb or foot to simulate walkingBy direct linkage to vehicle wheel or axle	296 297 298 299 300 301 302 303	respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding means .And internal mechanism to move figure portion Phonograph, tape, or wire Head or head part movement Eye, eyelid, or mouth movement Phonograph, tape, or wire .And motive power means or hand crank
267 268 269 270 271 272 273 274	FIGURE TOY OR ACCESSORY THEREFOR .Rollable .Having sounding meansIncluding resiliently recovering striking mechanismAnd wheel-driven mechanism for moving figure or figure portionPivoted figure having center of gravity below pivot axisIncluding wheel-driven mechanism for moving figure portionVehicle and external figureHaving moving limb or foot to simulate walkingBy direct linkage to vehicle wheel or axleElongate figure having writhing	296 297 298 299 300 301 302 303 304	respiration, heartbeat, body temperature, or specific symptom of illness .Having means for simulating personal toilet or medical activity or device therefor (e.g., bathing, hair care, etc.) .Having sounding means .And internal mechanism to move figure portion Phonograph, tape, or wire Head or head part movement Eye, eyelid, or mouth movement Phonograph, tape, or wire And motive power means or hand crank .Nursing, eating, or drinking

308	.Leaping or projected figure or accessory	338	And means to move or manipulate head
309	Figure	339	Changeable by hand-
310	From within enclosure (e.g.,		manipulatable means
	"Jack-in-the-box")	340	Manipulatable means is
311	Self-projecting		different body portion
312	By impulse from moving limb	341	Including changeable eye
	or foot	342	Movable eyelid
313	.Animal and rider	343	Movable eye
314	.Including guide for ascending or	344	Universally movable
	descending figure	345	About horizontal axis
315	And flaccid element for	346	Independently movable eyes
	supporting or moving figure	347	Incrementally closed by
316	.Constructed for walking down	317	rocking figure
310	incline	348	Having end-mounted axle, or
317	.Including spring for returning	340	relatively pivoted or sliding
317	limb or foot during walking		anchoring portions
318	.Including musical instrument or	349	Having lock or drag for eye
310	simulation thereof	349	movement, or having spring
319	.Variable length hair		acting against axle in slot
320	_	350	Adjustable eye spacing
320	.Enlargeable or elongatable	351	
2.21	figure or figure portion	221	Operated by movably mounted
321	.Having selectively displayed	252	weight
	alternative faces, limbs, or bodies	352	Including motive-power means or hand-crank mechanism
322	.Seesawing or swinging (e.g.,	353	Motive-power means intrinsic
	jumping jack)		to figure
323	Including flaccid support or	354	Human figure having movably
	actuator for figure		attached arm or leg portion
324	.Tumbling		moved by motive power means
325	.Balanced or self-righting	355	Walking
326	Having relatively movable	356	Four moving supporting limbs
	section on balanced or self-		or feet
	righting portion	357	Plural relatively moving
327	.Having hand-or finger-		figures
	accommodating means in figure	358	Including extrinsic electric
328	Hand or finger forms visible		or wind-up motor
	part of figure	359	Including support or
329	And movable jaw		manipulator extrinsic to
330	.Having mechanism or		figure (e.g., marionette)
	manipulatable means to move	360	Relatively movable striking
	figure or figure portion		platform
331	Base-mounted figure and button-	361	Flaccid support or manipulator
	controlled flaccid element to	362	Plural flaccid elements to
	move figure or figure portion		manipulate plural body parts
332	Figure movable along endless	363	Hand-held overhead support
	path		for flaccid elements
333	Kicking	364	For drawing figure along
334	Fighting		surface
335	Including motive power means	365	Resiliently biased body
	or hand crank		portion
336	Striking	366	Rod-supported or -controlled
337	Having changeable facial		figure
	feature	367	Plural rods for manipulating plural body parts
			<u> </u>

368	.Reptile	405	.Having simulated weapon feature
369	.Fabric-covered stuffed figure		coordinated with sound
370	Having enclosed reinforcing or skeletal portion	406	Including finger trigger for sounder
371	Including hinge feature	407	Single report
	connecting parts	408	.Simulated musical instrument,
372	Including facial or hair feature		radio, camera, or television device
373	.Having enclosed reinforcing or	409	.Including rolling or tumbling
	skeletal portion		toy
374	Of non-recovering bendable	410	Toy locomotive
	material	411	And rod, cable or tether as
375	Including pivoted joint		guide means
376	.Having movably joined body parts	412	Guide means secured centrally
377	Walking		of wheel
378	And locking means for retaining	413	Including wheel-carried
	body parts in adjusted		strikers for impacting non-
	position		rotating portion
379	Including separate resilient	414	Having belt-carried or rotary
	member		striker on vehicle
380	Elastomeric member	415	.Snapping sheet member (e.g.,
381	For joint allowing movement		cricket)
	about plural axes	416	.Voice-actuated diaphragm (e.g.,
382	By bendable or pliant material		kazoo)
	connecting parts	417	.Tick-tack
383	Including joint allowing	418	.Percussion
	movement about plural axes	419	Unsecured loosely confined
384	Swivelled head		percussive member (e.g.,
385	.Formed from specific material	400	rattle)
386	Edible material	420	Ratchet-actuated
387	<pre>Sheet material figure (e.g., paper doll)</pre>	421	Including handle for shaking, flipping, or flicking
388	Three-dimensional folded	422	Resiliently restored swinging
	figure	400	percussive member
389	Eye	423	GARAGE
390	.Limb, hand or foot	424	MATERIAL OR ARTICLE HANDLING
391	.Head	405	DEVICE
392	Eye	425	.Having load supporting swingable
393	Eyelash	100	arm
394	Having hair	426	<pre>Horizontally swinging (e.g., crane)</pre>
395	Mouth feature	427	On wheeled vehicle
396	BALANCED OR SELF-RIGHTING (E.G.,	427	Having tiltable vehicle body
	ROCKING)	420	portion for discharging
397	SOUNDING		contents (e.g., dump truck)
398	.Detonating	429	DISCRETE LAUNCHER, ACCELERATOR,
399	Including projecting means	127	OR RETARDER FOR TOY VEHICLE
400	Projectile	430	.Including helical spring or
401	Simulated weapon	100	elastomeric strip
402	Cane or rod thrust	431	ROLLING OR TUMBLING (E.G.,
402	longitudinally against surface		
			WHEELED)
403	Including magazine	432	WHEELED) .Fire apparatus
403	Including magazine .With means facilitating	432 433	WHEELED) .Fire apparatus .Endless track vehicle
	Including magazine		.Fire apparatus

435	.Vehicle and means for freeing or	466	Wheels vertically movable
155	launching object therefrom	100	relative to chassis
436	.Including changeable program	467	Railroad locomotive simulation
430	carried by vehicle	468	Having means permitting turning
437	.Including means for causing	400	of wheel for steering
437	erratic movement	469	Having specific means for
438	.Including illumination means	409	mounting axle to chassis
430	3	470	_
439	And battery holder on rolling or tumbling toy	470	Having specific body structure
440	5 -	471	Demountable
	.Motorcycle, tricycle or bicycle	4/2	SIMULATED MEDICAL OR TOILET
441	.Including vehicle-carried	472	DEVICE
	control mechanism activated or	473	SIMULATED WEAPON OR PROTECTOR
	deactivated in response to contact with extrinxic	474	SIMULATED CLOTHES OR FABRIC
		455	WORKING OR CLEANING
440	structure	475	INCLUDING DISPENSER
442	Reversing	476	BUILDING, TOWER, BRIDGE OR
443	.Having reversible drive		HABITATION
444	.Including extrinsic guide or	477	.Including electrical feature
	means cooperable with	478	.Folding or collapsible
4.4.5	extrinsic guide	479	BUILDING FURNISHING OR APPLIANCE
445	Cooperable traction means on	480	.Simulated fireplace
	vehicle and roadway	481	.Simulated stove, heater, or
446	By guide surface below running		cooking device
	surface	482	.Chair, table, desk, cabinet or
447	Vehicle having flanged wheel		bed
448	.Including wheel- or axle-	483	SIMULATED DISPENSER OR PUMP
	operated device	484	ELECTRIC
449	Operated by belt drive or by	485	.With lamp
	tangential contact with wheel	486	RESILIENT TOY OR ACTUATOR
450	.Including handle, rod or tether	487	FOLDABLE, COLLAPSIBLE, OR HAVING
	for physically guiding or		PIVOTED PORTION
	<pre>propelling (e.g., trundle,</pre>	488	.Sheet material folded to form
	hoop, etc.)		object
451	Plural wheels	489	INCLUDING SLIDING OR GUIDING
452	Guide means secured centrally		ELEMENT OR PORTION
	of wheel	490	INCLUDING FLACCID ELEMENT OR
453	Including rolling element or		PORTION
	sliding or pivoted retainer	491	MISCELLANEOUS
	between rod and hoop or wheel		
454	.Remotely controlled		
455	Via conductor adjacent to		
	vehicle path	anoaa n	EEEDENGE ADW COLLEGEIONG
456	By radio signal	CROSS-R	EFERENCE ART COLLECTIONS
457	.Including intrinsic motive power	0.01	
	means for propulsion	901	DETACHABLY ADHESIVE
458	And eccentric weight		
459	Elastomeric (e.g., rubber band)		
460	Steering vehicle		
461	Having lock for rotary motor or	FOREIGN	ART COLLECTIONS
	transmission		
462	Having instrinsic energy-	FOR	CLASS-RELATED FOREIGN DOCUMENTS
	storing battery or flywheel		
463	And clutch		
464	Flat spiral or torsion spring		
465	.Wheeled vehicle
